

# Zeebrugge Terminal

Wallenius Wilhelmsen Logistics (WWL) is a leading global provider of finished vehicle logistics to the automotive and High & Heavy industries.

In Zeebrugge, WWL operates a full-service 470 000 m<sup>2</sup> terminal capable of storing 19 000 vehicles.

## Zeebrugge Terminal

WWL terminal customers at Zeebrugge can benefit from the power of integrated solutions: shortened lead times, reduced costs and consistent high quality services. All as a result of seamless connections between our Ocean services, Technical Services, Terminal handling, Supply Chain Management and Inland distribution, in a single location.

The Wallenius Wilhelmsen Logistics terminal in the Southern Inlet Dock at Zeebrugge is ideally located for import, export and transhipment of Automotive, High & Heavy and Breakbulk cargoes. Zeebrugge is the largest RoRo port in the world, offering access to WWL's global ocean transportation network and Vehicle Processing Centre.

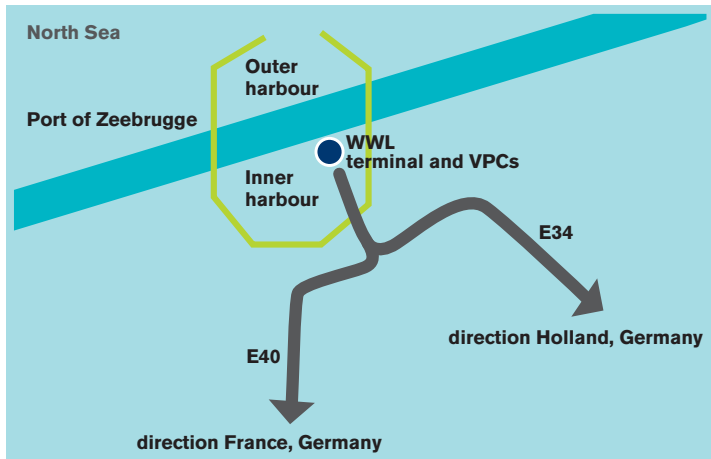

The Zeebrugge terminal covers an area of 470 000 m<sup>2</sup>, including 3 500 m<sup>2</sup> of covered storage. Within this facility, WWL provides a full range of services, from stevedoring to storage, terminal handling, customs, transportation planning and technical services.

Berthing operations are extremely smooth at Zeebrugge, with a flexible stevedoring workforce and two available berths. The facility is easily accessed nautically. It has a draft of 16m, a transhipment port for short sea and deep-sea ships and a 50m wide, 500m long lock into the inner harbour.

WWL offers extremely high quality of service at Zeebrugge, ensured by state-of-the-art processes, highly qualified management and workforce and specialised training, audits and security services. Our integrated services provide direct supply chain benefits for our customers.
